

Frame Colours

Three standard colours (shown here) are available for the frame coating of most AGA products:

- light grey (RAL 7035),
- white aluminium (RAL 9006),
- pure white (RAL 9010).

The high-quality paint has a glossy finish, is easy to clean and resistant to disinfectants.

Note: For technical reasons, slight variations in colours are possible.

A different colour scheme (special order) is possible at extra charge, and subject to prior arrangements. Please notify us with the desired RAL colour.
